Williamsburg, Va., August 29.—The James City County Board of Supervisors, composed of William Lee, chairman; John A. Barnes and Warren Marston, was in session here yesterday, transacting routine business. L. B. Manville, of Newport News, general superintendent of the Richmond and Newport News sand-clay road, appeared before the board to interest that body in raising more funds for the completion of the work in this county. Mr. Manville says it will take \$2,000 more to put on the finishing touches. It will have to be raised by popular subscription, as the county has practically exhausted its resources. Indications point to the early resumption of business by the Williamsburg Knitting mill, which went into the hands of receivers last September. C. C. Groat, of Newport News, has made a bid on the plant, which, it is thought, will be accepted. Mr. Groat will enlarge the plant, increasing his capacity to double its present output, and will employ about 300 operatives.

WILL NOT FIGHT SUIT FOR DIVORCE

Upton Sinclair's Wife Says She Is Afflicted With "Conservative Husband."

New York, August 29.—The marital difficulties of Upton Sinclair, the Utopian colonist and Socialist author, and Meta Fuller Sinclair, who have been married eleven years, reached a climax yesterday, when the author brought suit for absolute divorce, naming Harry Kemp, the poet, as correspondent.

Mrs. Sinclair was asked if she would fight the divorce proceedings. "No," she said. "I have not yet consulted a lawyer, and my present intention is not to defend the suit. When informed of the statutory grounds which the New York law provides for the granting of a divorce, she said:

"It does not seem to me that divorce should be a disgrace, even divorce obtained upon such grounds as our law must be shown in this State. I believe that an individual is justified in pursuing his or her ideal."

"I have the misfortune," she said, "to have a very conservative husband. He is conservative by instinct and nature, and this is a radical few words. A monogamist ought to be able to do the part of a husband; in other words, he ought to have some time to devote to his wife. He should not be so absorbed in his work that the true portions of human relationship fade into insignificance beside his work."

ALLEGED DOCTORS FLEE FROM CITY

Asheville, N. C., August 29.—The "Electro-Radio Company," an alleged "cure-all" concern, which established here a law office a few weeks ago, practically dissolved yesterday, when its chief officers, "Dr." W. Brantley and "Dr." Xavier Whitman, fled from the city before warrants taken out by the Buncombe County Medical Society. The warrants charge "practicing medicine without a license" and "defrauding the public."

The offices of the company are closed to-night, while several attachments on their furniture and equipment are in the hands of the sheriff. The company did extensive advertising, its specialty being alleged electro-radio treatment, and did a heavy business. It is charged, among other things, that the company claimed to remove gall stones by means of a medicine which on analysis proved to be sedlitz powders and olive oil.

KILLS CHILDREN; ENDS OWN LIFE

South Thomaston, Maine, August 29.—Grief over the death of his wife led Edward Bennett, an Englishman, and a graduate of Oxford University, England, to the crime of murdering his three children and then take his own life yesterday. Two of the children were killed by the use of chloroform, and the third by cyanide of potassium. To make his own death certain, the man went to the water's edge, and there took a dose of cyanide of potassium and jumped in. His body was found when the tide receded to-night.

The murdered children are Edward, aged six; Barbara, aged four, and Nancy, aged two. Bennett's wife died three weeks ago, and since then the children had been cared for by a housekeeper, Mrs. Thurlow.

After having killed the children, apparently during the night, Bennett wrote a minute description of how the deed was done, and also a long paper in defense of his position.

The letter is addressed to the Rev. Russell Wood, pastor of the Episcopal Church, at Rockland, where Bennett and his family attended, and in part is as follows:

"My darling children have gone to join their mother, as I am going to join them all and to face my God, who I hope will forgive me if I have done wrong."

Then follows a dissertation on murder and arguments by which Bennett seeks to defend his act.

The murder was not discovered until late to-day.

STANDARD STOCK WILL BE DIVIDED

Distribution to Stockholders Expected to Take Place in December.

New York, August 29.—An official of the Standard Oil Company said to-day regarding the dissolution of the company under the mandate of the Supreme Court, that only the stock of the thirty-three companies affected by the court's decision will be distributed to the stockholders. He said that the large surplus that has stood to the credit of the Standard Oil Company, of New Jersey, will not have to be divided among those companies, because the surplus had never been collected by the parent company. Only that amount which has been paid out by Standard Oil in dividends has been drawn from the subsidiary companies, according to this authority, and the profits above this amount were left with the companies, so each at the present time has its proper share of the surplus.

Accountants of the Standard Oil Company are working out the terms for the distribution of stock of the separate companies, and the task is a difficult one. Books close August 31 and after that date they will be beginning to just what each stockholder's share in the thirty-three companies will be. Distribution of stock and fractions is expected to take place about the first of December.

RUSSIA AND JAPAN AREE OF CLAIMS

Emperors Exchange Telegrams in Settlement of Certain Questions.

St. Petersburg, August 29.—The Emperor of Russia and the Emperor of Japan exchanged telegrams yesterday on the occasion of the settlement of certain questions which have been under consideration for years. These questions related to various claims and counter-claims for legitimacy on both sides for losses incurred during the war.

For the most part the claims were on the Russian side, the big item of which was payment for property of Russian subjects at Port Arthur. In the settlement reached, Japan agrees to hand over to Russia \$10,000 for apportionment to persons whose claims Russia has supported. Japan will purchase for \$5,000 the property of Russian subjects on concession land, and in the suburban districts of Port Arthur. She agrees to pay rental for houses of Russians at Kwantung, and abandons claim to the property of the Port Arthur municipality. The main claims and needs to satisfy the claims of contractors.

Japan also agrees to pay \$50,000 for a Red Cross ship which she seized and which has now become unfit for that purpose. The former Russian hospital ship Angara, which is to be returned to Russia, is being repaired at the dry dock at Kure for repairs before the transfer is made.

The text of the telegrams exchanged between the Emperors are published here. The Japanese Emperor, announcing his pleasure at the settlement of the dispute over the ship Angara as well as the settlement of unalterable friendship between the two countries, says:

"I am sure that Your Majesty will graciously share my conviction that the settlement will contribute to solidify still further the good relations existing between our two countries." The Russian Emperor in reply expressing heartfelt thanks, says: "Thoroughly sharing as I do Your Majesty's sentiments, I see in the handing over of the Angara fresh proof of a most potent pledge of our reciprocal friendship."

DESTROYED BY FIRE.
Store, Dwelling and Tobacco Warehouse at Scottsburg Burned.

[Special to The Times-Dispatch.]
Scottsburg, Va., August 29.—The store and dwelling belonging to J. P. Bailey and occupied by James C. Richmond, a family with a large tobacco warehouse owned by W. B. Chandler, were destroyed by fire at 4 o'clock this morning. The fire originated in the kitchen of the Richmond home, and spread so rapidly that only a part of the contents of the store and dwelling could be saved. The warehouse, being in close proximity, and built of dry pine material, was on fire quickly and soon consumed.

The people of the town turned out and fought hard to save the adjacent buildings and succeeded admirably. The first building was a party covered by insurance. The warehouse was a total loss.

MANY CLAIMS ON MEXICO

American Citizens Allege Losses During Recent Revolution.
Washington, August 29.—Many claims of American citizens against Mexico for alleged losses and damages sustained during the recent revolution continue to pour in on the State Department. They are being forwarded to the Mexican government. The declared policy of the United States is to take all such claims to the Mexican tribunal, created by President de la Barrera, the State Department will not interpose, except in cases of apparent miscarriages of justice.

More than 500 claimants have been instructed the last month to lay their cases directly before the Mexican government, but to insure proper investigation the State Department also has forwarded them.

WOULD ESTABLISH PARCELS POST

Washington, August 29.—An outline of the program of legislation for the postal service, which the Congressional Committee on Postmaster General Hitchcock will ask the Congress to follow during the regular session to begin in December, was indicated by Mr. Hitchcock yesterday. In his annual report, which will be laid before Congress in December, Mr. Hitchcock will recommend the establishment of a parcels post service on rural mail routes, the crystallization into law of proposed increases in second-class mail rates, and the enactment of the proposed law providing for a radical change in the system of compensating the railways for transporting the mails.

Mr. Hitchcock explained that it was his idea first to establish parcels post on the rural routes, in order that the administrative details of the system might be worked out without disadvantage to the postal service generally. Gradually, he would extend the parcels service to urban communities, so that packages and parcels might be delivered locally by city carriers. Subsequently, the service would be extended to include railway transportation.
